## Questions:

1. How many hours did it take you to complete this assessment?
  - a. It took about two hours.
2. What online resources you have used?
  - a. None were needed, as I had the week two's examples to reference.
3. Did you need to ask any of your friends in solving the problems.
  - a. I did not.
4. Did you need to ask questions to any of your instructors? If so, how many questions did you ask?
  - a. I did not.
5. Rate (subjectively) the difficulty of each question from your own perspective, and whether you feel confident that you can solve a similar but different problem requiring some of the same techniques in the future now that you've completed this one.
  - a. The questions were very simple and straightforward from the perspective of someone who has completed this week's past worksheet already - it just feels like an easier version of those. I feel confident that I would have no issues with a similar but different problem now that I have finished this.

Thank you!
